**Education**

Norwich University, Vermont, MFA, 1996  
University of Miami, Sculpture, BFA 1992  
Whitney Museum of American Art, Independent Study Program, 1991-92

**Statement:** Each public art commission is a collaboration with project architects, engineers, government agencies, and community stakeholders. My typical project scope is to incorporate art, as an aesthetic overlay to existing and new capital construction projects. This allows for a seamless integration of public art as a vital component to architecture.
